

ONLINE CLASSROOM LESSONS

The Education Team created TEKS-aligned online lessons that educators, students and parents can use on an e-learning platform or in the classroom. The lessons are designed so students can independently complete them. Each lesson includes a lesson plan, student lesson instructions, an instructional video or PowerPoint for students, and shareable student worksheets and activities.

- **The Rise of Nazism: A Film Analysis**

This lesson helps students understand how Hitler and the Nazis gained power in Germany. The lesson starts with students watching the Museum's exclusive film called The Rise of Nazism. Then, students choose between two activities, both of which analyze the film to answer questions on how the Nazis gained power and its impact on the lives of German Jews. The first activity uses a graphic organizer to show comprehension skills, and the other using a timeline to show analysis skills.
